

THE WEARY WAY

Daily Becoming Less Wearisome to Many in Norwich.

With a back that aches all day, with rest disturbed at night, annoying urinary disorders, this is a weary way, indeed. Doan's Kidney Pills are especially for kidney trouble. Are endorsed by Norwich citizens. Mrs. Margaret Brown, 334 W. Main St., Norwich, says: "My back was in bad shape and I suffered severely from 'full, heavy pain' across my kidneys. It was almost impossible for me to get out of bed in the morning and I felt miserable in every way. I tried different remedies, but wasn't helped. When I read of Doan's Kidney Pills, I procured a supply at N. D. Sevin & Son's Drug Store. They made me feel like a different woman, restoring my kidneys to a normal condition, and removing the pains in my back." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Troy, Buffalo, N. Y.

Why's "Gets-It" for Corns, Like a Kiss?

Because Everybody Tries It, Everybody Likes It, It's Painless and Takes No Time.

"Gets-It" is the wonder of the corn-cured world. Millions say so, because millions have used it. That's what makes it the biggest selling shoe remedy on earth today.

Remedy on earth today. "Gets-It" will surely get that corn or callus you've been bothering about. It's easy to get rid of—take it right off—clean it with a brush. Apply it in 2 seconds. Can Locate Skunk's Misery?

People who think they are well acquainted with the town of Killingly might be asked as to the location of Skunk's Misery. There is a distant and lonely section of the town, well known by this non-euphonious name for many, many years, old residents say.

There is a suggestion of the season in the fact that the Ladies' Aid society of the Baptist church has planned a quilting bee to be held at the church Wednesday with a Harvest festival in the evening.

An exceedingly heavy frost cut down many flowers, plants and vegetables Monday morning, during the early hours of which there was a heavy fog hereabouts.

Millions Worth of Property Untaxed.

William K. Pike, C. E., makes the interesting statement that there is a million dollars' worth of property, not real estate, that might be legally taxed in this town that is escaping taxation. This estimate includes savings accounts in Rhode Island banks and many other assessable values.

If this estimated million dollars could be added to the tax list the tax rate could be reduced, Mr. Pike says, and the town be enabled to meet its obligations.

PUTNAM

that the society was under special extra expense this year in improving buildings and driveways and paying for insurance on the buildings for a period of three years.

The reports on the fair as now made up give the society cause for much satisfaction and the right to hope that the fair will continue to expand as it has with nite past few years.

FAREWELL RECEPTION

Tendered Manager William L. Moran by Telephone Employees—Receives Handsome Gifts.

Manager William L. Moran of the telephone exchange here and his family and friends were tendered a farewell reception by employees of the exchange gathered in Galloway hall Monday evening and presented with a remembrance of them in the form of a silver holder for fraternal order membership cards. The affair was a complete surprise to Manager Moran. Among the number from out of town was E. H. Gray, Norwich district commercial chief.

Salad, rolls, cake, coffee and fruit punch were served as a part of the evening was given over to dancing.

There is more than ordinary regret among the employees of the divisions which Mr. Moran has had charge for the past three years over his approaching departure for Meriden, where he is to be manager and also will serve the Wallingford and Southington divisions in the same capacity. Aside from his efficiency in directing the affairs of the three divisions here he has been an exceedingly popular official, but with none more so than those who labored with him.

Mr. Moran has appreciated and reciprocated this feeling and there is mutual regret that he is to go away from Danielson, where he has made his headquarters since coming into Windham county.

ACTIVE AND WELL AT 90.

Mrs. William Wood Busy and Alert—Starting to Make Quilt of 1,000 Pieces.

Mrs. Mary Ardella Wood passed her ninetieth birthday Saturday at the home of her son, Byron Wood, East of the town. She is a hale and hearty woman, reaching the age of ninety, an allotment of years that comes to so few, and quite another thing to travel on to the advanced age of ninety, retaining one's faculties in all the freshness and vitality of long past decades. Such, nevertheless, is the case with Mrs. Wood. She is a grand old lady, but old in years only. She is active, cheerful, and full of life. She has been in the present with the long trail of the past to be scanned from the heights of life when she cares to turn about for a look in that direction. She is a busy woman. She has her daily round of duties, which includes an almost all-the-year-round care of a flower garden with its tender and hardy plants, her sewing and many other interests. Recently she completed the work of putting together a quilt that contains more than 1,000 pieces.

Mrs. Wood follows current events from day to day and, incidentally, reads The Bulletin every morning and reads without pause. What is going on in the world is information she has at her mind's command as promptly as her health is normal and life holds much of pleasure for her. Her children and grandchildren and great-grandchildren are about her and all are a source of happiness.

Mrs. Wood is the widow of William Wood, who was a well known and a watchman in Danielson. There are five living children—George N. Wood of New Rochelle, N. Y.; Byron, Mrs. E. H. Hammett, Mrs. J. Herbert Lyon, all of Danielson, and Mrs. John Cogswell of Oakland Beach, R. I. Four of Mrs. Wood's children are dead. There are seven grandchildren and five great-grandchildren.

Mrs. Wood was born in Sterling, but has lived in this town the greater part of her life and here the hope of all her friends is that she shall live to round out a full century of years and more as her fine condition of health indicates she may.

Fifty-two thousand pounds were donated to the fund for the purchase of iron nails, which were to be driven into the statue by the donors. Paving Work Held Up.

Work on the new pavement in Union square was suspended Monday after a conference between representatives of the company doing the work and city officials. It is understood that the stones going into the work were in some cases not as properly treated with asphalt as required. It is not expected that the delay in the work will be long and that the difficulty that has arisen will be promptly adjusted.

Popular Reports Company at the Theatre.

The Whitehead and Strauss company opened at the Bradley theater Monday, playing to large audiences. At the afternoon and evening performances. The first offering, a new play, The Test, was well received. It was a fine drama with plenty of action and a fine vein of comedy. The piece was written by Mr. Strauss, who has been a favorite with local audiences for a number of seasons and who has never failed to score a big success here with his companies. This year he has surrounded himself with an unusually clever organization which made itself popular at the first opportunity.

NEW CURATE ARRIVES.

Rev. John McJetry, Assistant to Father Bedard, Fluent Italian Speaker.

Rev. John McJetry of West Haven has been assigned to St. Mary's parish as an additional assistant to Rev. Charles F. Bedard and has taken up his duties here. This gives Father Bedard an additional assistant. St. Mary's parish has continued to grow for years and now numbers upwards of four thousand souls and the administering of their spiritual needs has taxed the pastor and his assistant, Rev. Adrian Dykeman.

Father McJetry speaks French and Italian as well as English and his knowledge of the Italian languages has been of great assistance to the people of that race resident in Putnam.

Basketball League Probable.

It now seems probable that a basketball league will be formed to include three Eastern Connecticut High school and three high schools from Western Connecticut. The schools probably Webster, Southbridge and Oxford. The Connecticut teams will be Putnam, Danbury and Killingly. Something about the organization of the league will be said at Webster this afternoon, when the representatives of Putnam, Danbury and Killingly will be together for the track meet.

BROKEN PLATE GLASS WINDOW.

Alec Seder Caught on His Return From Danielson.

Alec Seder, for whom the local police have a warrant for some time, was rounded up when he made his appearance here, was presented in court and given a sentence of eight months in jail after it had been proved to the satisfaction of Judge Geisler that Seder was guilty of having maliciously broken a plate glass window in Smith's cafe on South Main street a few weeks ago and was a restaurant in Front street. Seder has been staying in Danbury for some time and has been employed with the men who are laying street surfacing there. This fact was known to the police here. Seder evidently figured he would be safe in coming here, but he was mistaken. He was taken to jail by Deputy Sheriff G. F. Holbrook.

portance, with a string in London composed of hundreds. These firms ordinarily sell tea at four cents a cup, but have now raised the price to five cents. As there are a hundred cups of tea to a pound—perhaps much more in the restaurants, where the leaf is boiled in soda so as to extract the full strength—the increased profits amount to a dollar a pound on the excuse of an eight cent tariff.

Tea and tobacco are of course imported products. But the action of the tariff on articles not hitherto taxed, so one paper asserts, would be the same. A protective tariff on food and wearing apparel would merely give the producers and handlers a chance to raise their profits. It is without benefiting labor, while the increased cost of living would force up wages faster than Great Britain could meet foreign competition as she did in the days of cheap living.

By an irony, the very tobacco trust which is arousing so much indignation among the people, even to the extent of causing some to swear off smoking, met public support when first established. The American tobacco trust some years ago threatened to invade the kingdom. Thereupon the British public rallied to the defense of the British sellers, who established a defensive organization. This defensive league is now made an offensive league against the British public.

It is pointed out that Mr. McKenna made a grave mistake in not putting a stamp tax on tobacco, instead of raising the duties. This is done in the case of patent medicines, which charge the extra amount only when the stamp is affixed. The dealers in medicine are given a certain time in which to comply to the new law.

DEAFNESS CANNOT BE CURED by local applications, for it cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. No case of deafness has been cured by Catarrh, which is nothing but a local inflammation of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars.
